

~ Families Activities ~ Weeks 9 and 10

Our family is a very special part of who we are and where we belong. We'd like your child to tell us about their family and the special people in their lives. We have some suggested activities below for you to enjoy together;

*** Create your family as a collage using natural or man-made materials or even a model using playdough, lego, duplo, or blocks. Perhaps story telling is your special talent and you could tell a story about your family for someone to scribe or have a go at writing the story.**

*** It would be lovely for your child to tell each family member what they like about them; someone could help to scribe their answers to share with us.**

*** You can find a lovely story and activity on the website 'Sunshine Online' user name: sawyers, password: sawyers**

Story: "Who is the tallest?" (Learning Space 1, The Bookshelf, Fiction. ~ it doesn't seem to work on a mobile phone) Can you work out who is the tallest and shortest in your family? (Don't forget your pets!) Perhaps you can order your families heights and draw a picture!

Activity: Learning Space 1, Maths, 'I am tall'/activities.

We'd love to hear about your experiences and see what you create ~ **upload things onto your portfolio/messages in our class Dojo.**
